## *Caring for Landscape Plants*

### Gallons of Water Needed for Established Plants

	<u>Canopy Size</u>							
	2'	4'	6'	8'	10'	12'	16'	20'
Tree	5	16	26	38	59	85	150	235
Shrub/Vine	4	12	20					
Ground Cover	2	5	9					

	<u>Frequency</u>		
	Winter	Spring/Fall	Summer
Tree	30 days	14 days	7 days
Shrub/Vine	14 days	7 days	2x weekly
Ground Cover	14 days	7 days	2x weekly
Turf	2-4 inches of water per week		

### **New Plantings:**

Water 2x the first day, then once a day for the next 2 days. After the 3rd day, skip a day in between for the next week. After the 1st week, skip 2 days in between the 2nd week and so forth until you've reached the seasonal norm from the schedule above.

### **Fertilizing Schedule**

Trees, Shrubs, Vines	3x year	February	May	September	21-7-14 or similar analysis
Turf	every 30 days	21-7-14 5 lbs/1000 sq ft of lawn area			
Annuals, Pots, Bedding	every 30 days with an all purpose type fertilizer				

### **Weed Control**

In non turf areas apply pre-emergent herbicide "Dimension" 2-3 times per year prior to our rainy seasons. This will prevent weeds from coming up at all. Use "Glysohate" herbicides when weeds appear. Turf areas, use broadleaf type weed killers when weeds occur. For best results always try and control "young" growth weeds.
